

Your Single, Trusted Source
for Integrated Technology Solutions

The Corrections Innovation Leader®

GTL has spent more than a quarter of a century becoming the most advanced, most trusted, and most dedicated company for providing a full range of solutions to the corrections market.

Enhancing Operational Efficiencies

Our comprehensive suite of integrated solutions helps facilities see the “big picture” and run more smoothly, more efficiently, and more securely.

Making Communication Happen

We make it easy for inmates to stay connected to their support system, thereby fueling rehabilitation and reducing recidivism.

Caring About Customers

We provide customized solutions to meet the unique needs of all of our stakeholders while being continually focused on service and support.

Shaping the Corrections Environment of the Future

The challenges and issues faced by correctional facilities demand time, energy, and resources that many simply do not have. GTL understands that. That is why we have spent over two decades creating technology that makes your job easier.

We continue to be at the forefront of the constantly evolving corrections market. We have a history of always building the best products first—the first web-based inmate telephone platform, the first wireless tablet with the ability to make phone calls, the first web-based jail management system, and more.

A Proven History of Exceptional Value

In addition to being a company of “firsts,” we are a company of “mosts.” GTL has the most lobby and intake kiosks, the most phone calls made by inmates, the most years in business, and so on. We continue to be the company that “most” correctional facilities consult with “first” before implementing new technology. We are ready to include your correctional facility as part of that group!

Comprehensive Suite of Tools to Control Every Operational Aspect of Your Facility

GTL's advanced technology solutions are fully customizable to provide you with insight into every aspect of your operations. You will be able to collect, analyze, and act upon data to keep your facility running at peak condition.

Security-Focused From the Inside Out

We are dedicated to providing tomorrow's solutions today. With a focus on innovation, integration, and integrity, we put our customers—correctional facilities, inmates, and friends and family—front and center.

Our attention is focused on quality—offering the latest and most advanced products and solutions; security—preventing data breaches and hacks; and durability—withstanding everything that the corrections environment can throw at our devices.

GTL Solutions

Communications

Allow inmates to remain in contact with loved ones and support services through telephone calls, secure messages, and video visits, all while gathering insightful data

Payment and Deposit

Ensure the safe, secure, and accurate processing of deposits and payments with real-time reporting (GTL Financial Services is a licensed money transmitter and has attained PCI-DSS Level 1 compliance)

Investigative and Intelligence

Learn more about the inmate population, reveal subterfuge, and reduce in-facility crimes

Inmate Services

Give inmates access to education, entertainment, and other services to foster readiness and re-entry into society

Enterprise Management

Achieve new levels of efficiency, control, and safety by managing every aspect of an inmate's incarceration from intake through release

Technology, Platforms and Devices

A broad array of software, networks, phones, tablets, kiosks, and more that deliver our solutions

Make GTL Your One and Only Solution Provider

At GTL, we are personally invested in the success of the correctional facilities we serve. We offer focused attention and dedicated, experienced staff to work alongside your team in order to implement the best technology solutions for your facility.

To learn more about how we can help your facility become safer and more technologically advanced, visit www.gtl.net.

SmartPrison™

Efficient. Secure. Smart.

SmartPrison is GTL's proprietary method of seamlessly integrating our solutions to assist facilities in running more smoothly, more efficiently, and more securely.

All of GTL's innovative solutions work together to increase efficiency in operations, eliminate paper forms in favor of electronic records, expand visibility to critical data, and maximize the utilization of technology to dramatically improve the operation of your correctional facility. By implementing the innovative concepts and principles of the SmartPrison initiative, your facility will be better equipped to manage the care, custody, and control of your inmates.

Make your facility more efficient and secure by implementing such offerings as:

- GTL Inmate Telephone System (ITS)
- GTL Investigative and Intelligence Solutions
- GTL Visitation Solutions
- GTL Offender Management System (OMS)
- GTL Payment and Deposit Solutions

With SmartPrison from GTL, you'll see how the whole is greater than the sum of its parts.
