

Inspire Tablets

Revolutionary technology that brings a new wave of benefits for incarcerated individuals, staff, and facilities

Inspire is more than a powerful communication device. It offers incarcerated individuals the opportunity for personal development, responsibility, and self-improvement. The platform features customized applications in the areas of communication, entertainment, efficiency, and education.

Inspire Tablets calm the corrections environment by helping incarcerated individuals turn long stretches of idle, negative time into active, engaging, and productive time. The result is a population that is more focused on successful reentry and an environment with fewer confrontations, reduced contraband, and less violence.

Services on ViaPath Technologies' Inspire Tablets include, but are not limited to:

PHONE CALLS

- ▶ Video Visits
- ▶ Messaging
- ▶ Educational Content

ViaPath provides **over 300,000 tablets** that reach almost half a million incarcerated individuals.

- ▶ Law Library
- ▶ Games
- ▶ eBooks
- ▶ Movies
- ▶ Music
- ▶ Newsfeed
- ▶ Commissary Ordering
- ▶ Electronic Requests & Grievances

Inspire transforms how incarcerated individuals spend their time, how corrections officers handle their job duties, and how family and friends communicate with loved ones. By providing applications that build self-reliance and self-esteem, the Inspire Tablet program introduces powerful incentives for promoting positive behavior within the incarcerated population. The changes that have occurred thanks to the introduction of tablets makes one thing certain—Inspire is a far more useful innovation than correctional facilities ever thought possible.

Tablets are a simple yet effective way to increase efficiency and create more opportunities to connect incarcerated individuals to their friends and family—a true win-win for any facility.

ViaPath works to transform correctional facilities into rehabilitative environments by providing technology that meets facility needs, keeps communities safe, improves the wellness of incarcerated individuals, and fuels successful reentry for returning citizens. Leading the correctional technology field, ViaPath provides communication, rehabilitation, investigative, intelligence, finance, and reentry solutions.
